<sup>25</sup> An electronic copy of the ASX Restricted Securities Table is available from the ASX Compliance Downloads page on ASX's website.

<sup>26</sup> Note: ASX will advise which restricted securities are required to be escrowed under Listing Rule 9.1.3 as part of the admission and quotation decision. If properly completed restriction agreements and related undertakings have not been provided for all such securities advised by ASX, that will need to be rectified prior to admission occurring and quotation commencing.

*A reference in this Annexure to JORC means the Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Resources - 2012 Edition, a copy of which is included in Annexure 5A of the Listing Rules. Terms used in this Annexure which are defined in JORC (including, without limitation, 'exploration target', 'exploration results', 'mineral resource', 'ore reserve' and 'competent person') have the same meaning as in JORC.*

1. Where in the Offer Document does it state that the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) have been prepared and reported in accordance with JORC (Listing Rule 5.6)?<sup>1</sup>

Section 1.5
-------------

2. Where in the Offer Document does it state:
- that the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) are based on, and fairly represent, information and supporting documentation prepared by a named competent person<sup>2</sup> or persons (Listing Rule 5.22(a) for material mining projects and JORC clause 9 for all other projects);
  - whether the competent person is an employee of the mining entity or a related party and, if not, the name of the competent person's employer (Listing Rule 5.22(b) for material mining projects and JORC clause 9 for all other projects)?
  - the name of the professional organisation of which the competent person is a member (Listing Rule 5.22(c) for material mining projects and JORC clauses 9 and 11 for all other projects); and
  - that the competent person has given his or her prior written consent as to the form and context in which the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) and the supporting information are presented in the Offer Document (Listing Rule 5.22 for material mining projects and JORC clause 9 for all other projects)?

Section 1.5
-------------

<sup>1</sup> The Offer Document must use terminology consistent with the terms in Figure 1 of JORC. Terms such as 'mining inventory' or 'mineable resource' are not allowed.

<sup>2</sup> JORC clause 11 defines a 'competent person' as a minerals industry professional who is a Member or Fellow of The Australasian Institute of Mining and Metallurgy, or of the Australian Institute of Geoscientists, or of a 'Recognised Professional Organisation', as included in a list available on the JORC and ASX websites. The person must have a minimum of five years relevant experience in the style of mineralisation or type of deposit under consideration and in the activity which that person is undertaking. If the competent person is preparing documentation on exploration results, the relevant experience must be in exploration. If the competent person is estimating, or supervising the estimation of mineral resources, the relevant experience must be in the estimation, assessment and evaluation of mineral resources. If the competent person is estimating, or supervising the estimation of ore reserves, the relevant experience must be in the estimation, assessment, evaluation and economic extraction of ore reserves.

N° Item	Location/Confirmation
<p>3. Please enter “Confirmed” in the column to the right to indicate that the Offer Document discloses any potential conflict of interest any of the named competent persons may have and, if it does, indicate where in the Offer Document that disclosure has been made (JORC clause 9)?</p>	<p>No conflicts noted</p>
<p>4. Is there an Independent Geologist's Report included in the Offer Document?</p> <p>If so, where does it state that any exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be):</p> <ul style="list-style-type: none"> <li>• are based on, and fairly represent, information and supporting documentation prepared by a named competent person or persons;</li> <li>• the name of the professional organisation of which the competent person is a member; and</li> <li>• that the competent person has given his or her prior written consent as to the form and context in which the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) and the supporting information are presented in the report (Listing Rule 5.22 for material mining projects and JORC clause 9 for all other projects)?</li> </ul>	<p>Yes Section 9</p> <p>N/A</p>
<p>Is the Independent Geologist's Report either a technical assessment report, valuation report, or fairness and reasonableness report prepared in accordance with the Valmin Code?</p> <p>If so, where does it state in the report the declarations required by clauses 46, 47 and 48 of the Valmin Code?</p>	<p>Covering letter to report in Section 9</p>
<p>5. Does the Offer Document include a “metal equivalents” calculation?</p> <p>If so, where does the Offer Document include the following information required under JORC clause 50:</p> <ul style="list-style-type: none"> <li>• individual grades for all metals included in the metal equivalent calculation;</li> <li>• except where the information is commercially sensitive, the assumed commodity prices for all metals;<sup>3</sup></li> <li>• assumed metallurgical recoveries for all metals and a discussion of the basis on which the assumed recoveries are derived (metallurgical test work, detailed mineralogy, similar deposits, etc);<sup>4</sup></li> <li>• a clear statement that it is the entity's opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold; and</li> <li>• the calculation formula used?</li> </ul>	<p>No</p>
<p>6. Please enter “Confirmed” in the column to the right to indicate that the Offer Document does not include any reference to “in situ” or “in ground” values (JORC clause 51).</p>	<p>Confirmed</p>

<sup>3</sup> Actual assumed prices should be disclosed. It is not sufficient to refer to a “spot price”, without disclosing the actual price in question. Where the actual assumed prices used are said to be commercially sensitive, the entity must disclose sufficient information, perhaps in narrative rather than numerical form, for investors to understand the methodology it has used to determine these prices.

<sup>4</sup> Estimates of metallurgical recoveries for each metal must be used to calculate meaningful metal equivalents. Reporting on the basis of metal equivalents is not appropriate if metallurgical recovery information is not available or able to be estimated with reasonable confidence.

<p>Please indicate where in the Offer Document it states the level of confidence with which the inferred mineral resources are estimated and the basis for that level of confidence (Listing Rule 5.16.6)</p>	N/A
<p>Please also indicate where in the Offer Document the required cautionary statement has been included stating that:<sup>22</sup></p> <p><i>“There is a low level of geological confidence associated with inferred mineral resources and there is no certainty that further exploration work will result in the determination of indicated mineral resources or that the production target itself will be realised. The stated production target is based on the company’s current expectations of future results or events and should not be solely relied upon by investors when making investment decisions. Further evaluation work and appropriate studies are required to establish sufficient confidence that this target will be met.”</i> (Listing Rule 5.16.6)</p>	N/A
<p>And provide a copy of the technical report required under Listing Rule 5.16.6 to support the production target with a sufficient level of confidence and which has been prepared by, or under the supervision of, a named independent competent person or persons and includes the information referred to in Listing Rules 5.22(b) and (c)</p>	N/A

<sup>20</sup> Note that the cautionary statement must be proximate to, and have equal prominence as, the reported production target.

<sup>21</sup> Note again that the cautionary statement must be proximate to, and have equal prominence as, the reported production target.

<sup>22</sup> Note again that the cautionary statement must be proximate to, and have equal prominence as, the reported production target.

42. Is a proportion of the production target based on qualifying foreign estimates that have not been verified and reported as mineral resources or ore reserves in accordance with the JORC Code after 3 years from the date the qualifying foreign estimates were initially reported? If so, where in the Offer Document is the statement and explanation referred to in Listing Rule 5.14.2 (Listing Rule 5.16.7)?	N/A
43. Does the Offer Document include forecast financial information derived from a production target relating to: <ul style="list-style-type: none"> <li>• the mineral resources and ore reserves holdings of the entity (an entity level production target); or</li> <li>• a material mining project of the entity (or two or more mining projects which together are material to the entity)?</li> </ul>	No
If so, where in the Offer Document does it include all material assumptions on which the forecast financial information is based (Listing Rule 5.17.1)? <sup>23</sup>	N/A
Where in the Offer Document does it state the production target from which the forecast financial information is derived, including all the information contained in Listing Rule 5.16 (Listing Rule 5.17.2)	N/A
If a significant proportion of the production target is based on an exploration target, where in the Offer Document does it state the implications for the forecast financial information of not including the exploration target in the production target (Listing Rule 5.17.3)	N/A
<b>Scoping studies<sup>24</sup></b>	
<i>Complete this section if the Offer Document includes any reference to a scoping study.</i>	
44. Is the scoping study partially supported by an inferred mineral resource and/or exploration target? If so, where in the Offer Document does it state both the proportion and relative sequencing of the inferred mineral resource and/or exploration target within the scoping study (JORC clause 38)?	N/A
45. Where in the Offer Document is the cautionary statement required under clause 38 of the JORC Code about the scoping study? <sup>25</sup>	N/A

<sup>23</sup> If the economic assumptions are commercially sensitive to the entity, an explanation of the methodology used to determine the assumptions rather than the actual figure can be reported. Note, however, that economic assumptions may not be commercially sensitive. An entity that considers that certain information is commercially sensitive should refer to section 8.6 of Guidance Note 31 on the steps ASX expects it to take in these circumstances.

<sup>24</sup> JORC clause 38 defines a “scoping study” as an order of magnitude technical and economic study of the potential viability of mineral resources. It includes appropriate assessments of realistically assumed modifying factors together with any other relevant operational factors that are necessary to demonstrate at the time of reporting that progress to a pre-feasibility study can be reasonably justified.

<sup>25</sup> Note that the cautionary statement must be in the same paragraph as, or immediately following, the disclosure of the scoping study.

<sup>26</sup> ASX may require evidence to support expenditure claims.

<sup>27</sup> An "historical estimate" is an estimate of quantity and grade of mineralisation that is based on information and supporting documentation that was prepared prior to the introduction of JORC (1989) and which an entity has not verified as mineral resources or ore reserves in accordance with JORC (Listing Rule 19.12). A "foreign estimate" is an estimate of quantity and grade of mineralisation that was prepared using a mineral resources classification and reporting standard from another jurisdiction prior to an entity acquiring, or entering into an agreement to acquire, an interest in a mining tenement that contains the deposit, and which the entity has not verified as mineral resources or ore reserves in accordance with JORC (Listing Rule 19.12). Note that an entity must not include historical estimates or foreign estimates (other than qualifying foreign estimates) of mineralisation in an economic analysis (including a scoping study, preliminary feasibility study, or a feasibility study) of the entity's mineral resources and ore reserves holdings (see Listing Rule 5.11).
